SUMMARY

Entry-level Full-Stack Developer and Python Backend Developer with hands-on experience building web applications and RESTful APIs using Python, FastAPI, Django, Flask, Node.js, and Express.js. Skilled in database development with MySQL, PostgreSQL, and MongoDB, along with JWT authentication, Git/GitHub, and Docker. Experienced in developing AI/ML and real-time applications using Scikit-learn, OpenAI API, YOLO, and OpenCV, with a focus on backend development, database integration, API development, and problem solving.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C
Backend: FastAPI, Django, Flask, Node.js, Express.js, REST APIs, JWT Authentication
Databases: PostgreSQL, MySQL, MongoDB (NoSQL)
AI/ML: Machine Learning, Scikit-learn, Generative AI, OpenAI API, Prompt Engineering, YOLO, OpenCV, NumPy, Deep Learning
Tools & Development: AWS, Cloud Computing ,Git, GitHub, Software Testing

PROJECTS

AI-Powered ICU Monitoring Dashboard & Clinical Decision Support System

Technologies: Python, Streamlit, Scikit-learn, Plotly

- Developed a real-time AI-powered dashboard using Python, Streamlit, and Plotly for interactive physiological vital-sign monitoring.
- Trained a Random Forest classifier using Scikit-learn to analyze heart rate, blood pressure, temperature, and SpO2 data for patient deterioration-risk prediction.
- Implemented a Clinical Decision Support System to perform drug-drug interaction checks and cross-reference patient allergies with medications.
- Developed an ECG wave simulator using mathematical Gaussian curve formulations to visualize sinus rhythm anomalies, tachycardia, flutter, and flatline patterns.
- Implemented persistent local JSON-based data storage for patient records, active medications, and clinician logs across application sessions.

Land Registration Portal — Full-Stack Web Application | Node.js, Express.js, MongoDB, Mongoose, JWT, JavaScript, HTML, CSS

- Developed a full-stack land registration portal using Node.js, Express.js, MongoDB, and JavaScript to manage property records and user workflows.
- Designed and implemented RESTful APIs for property registration, ownership transfers, and application-status tracking.
- Designed MongoDB schemas using Mongoose for structured storage, retrieval, and management of land records and user
- Developed a public certificate-verification endpoint that enables authenticity checks without requiring user login.
- Built frontend dashboards that consume backend APIs to display application status, administrative controls, and digital certificate information.

FinAgent: Autonomous AI-Powered Financial & Banking Intelligence Platform | Groq *LLaMA-3.3-70B, FastAPI, React 19, TypeScript*

- Architected a full-stack AI banking platform using Groq LLaMA-3.3-70B and FastAPI with 15+ deterministic banking tools for transactions, spending analysis, and budgeting.
- Built a hybrid NLP fallback with fuzzy matching and Levenshtein distance, plus ML-based fraud detection (Isolation Forest) to flag suspicious transactions
- Developed a React 19, TypeScript, and Tailwind frontend with Recharts visualizations, secured via JWT auth, bcrypt hashing, and automated PDF statement generation.

PROJECT EXPERIENCE

Mevi Technology — Full-Stack Web Development & Data Analytics Intern **August 2026**

- Developed full-stack web applications using **Python, Django, HTML, CSS, JavaScript, and SQL**, including REST APIs, CRUD operations, authentication, and database integration.
- Used Git & GitHub for version control, debugging, testing, and managing application development workflows.
- Performed data analytics using Python, Pandas, NumPy, and Matplotlib for data cleaning, analysis, visualization, and insight generation.
- Built 10+ academic and personal software projects with hands-on experience in REST API development, database integration, authentication, debugging, testing, real-time applications, and performance optimization.

EDUCATION

Sri Siddhartha Institute of Technology *BE, Information Science and Engineering (Pursuing)* **2023 – Present(2027)**
Mahesh PU College Pre-University (PUC), PCMB **April 2023 ,Tumkur**
Maruthi Vidya Kendra High School **July 2021 Tumkur, India**
